Wednesday, September 22, 2004

8:30 AM **Session III**
IGP with IPv6
Campus Deployment and Addressing
Multihoming
DNS
Lunch
Session IV
Transitioning & Tunnels
Applications

****Please bring a laptop capable of running an IPv6 stack. We ask that these stacks be installed prior to the workshop, but help will be available at the workshop if that is not possible. Laptops should also have an integrated serial port or a USB-to-serial adapter for accessing router console ports.**
